Hello Mr. Mok,
I am having some trouble doing projectile motion problems and graphing. Could you please give me an extension on the day 2 assignment and the day 6 assignment? This would be a big help because I have a session booked with my tutor for tomorrow.
Thanks for your understanding, Ashwin.

Hello Mr. Mok,
I am trying to submit the day 2 assignment (the monkey problems) but I cannot find the actual assignment on my brightspace. I have attached the document here because I have no other way of submitting it.

I
Hi Ashwin. I already mentioned in class that I was closing the assignment starting at 11:59 pm last night. I also said to not send me any of your work via email because I don't want to be spammed by everyone especially due to failure to submit

the work on time. I have already extended the due date by an entire day. I feel that I have been generous enough.

This is something that needs to be worked on especially for the test on Monday.

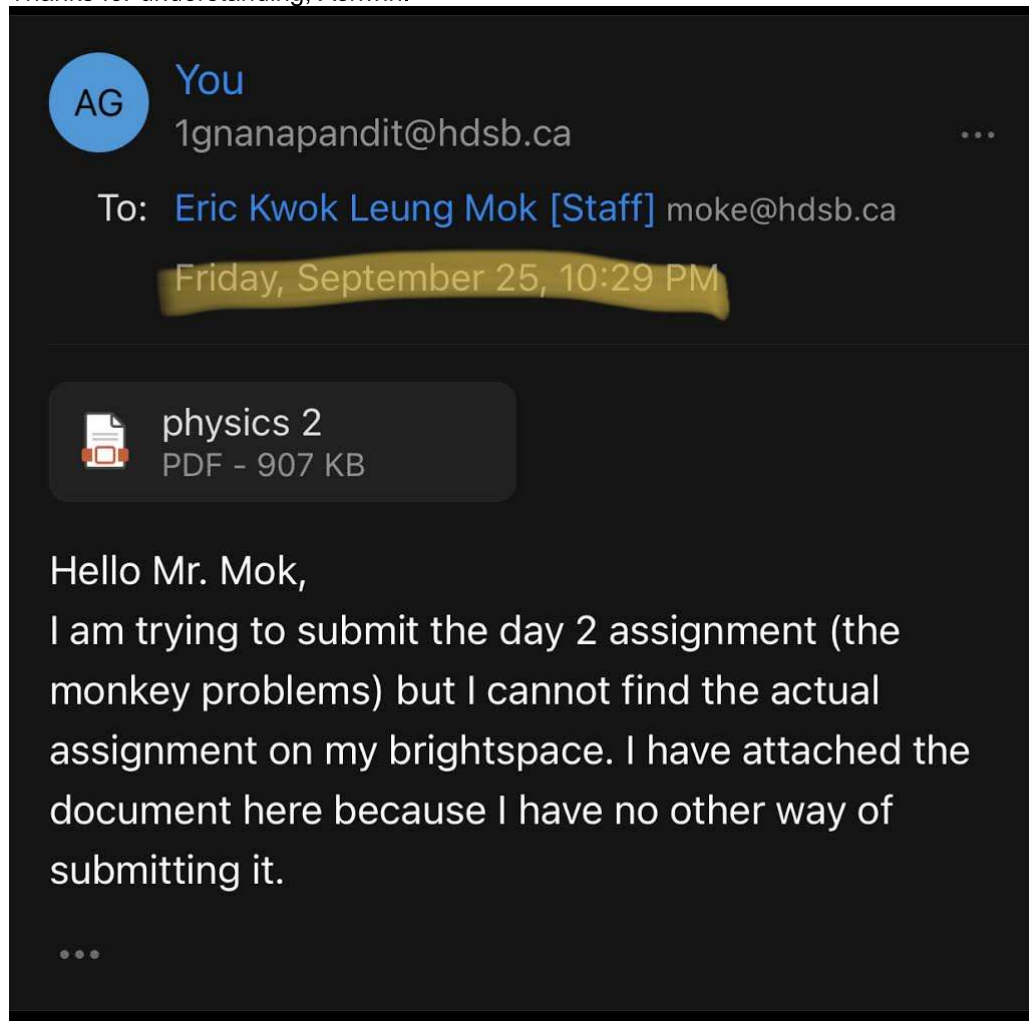

Have a good day. Study well and study hard.

Hi Mr Mok, As you can see from the screenshot below I submitted my work via email at 10:29 PM yesterday. I looked on the brightspace but I could not find the actual assignment so I could submit it. That is why I emailed it to you. Thanks for understanding, Ashwin.

Hi Mr Mok, As you can see from the screenshot below, the email I sent you was sent at 10:29 PM yesterday. I looked on the bright space and I could not find the actual assignment and so I emailed it to you. Thanks, Ashwin.

You
